Mare information:

Name: _____ AMHA reg. # _____

Sire: _____ Dam: _____

Foaled: _____ Color: _____ Number of pregnancies: _____

Mare Owner:

Name: _____

Address: _____

Phone number: _____ Email: _____

Breeding Dose Information:

A Dose consists of 8 straws. Each straw is .5ml.

A maximum of 6 doses may be purchased per contract.

Mare owner agrees that they are purchasing frozen semen by the dose. Mare owner will determine the number of doses they wish to purchase with each contract (1-6 doses).

Unused Doses:

Mare Owner may opt to discard unused doses.

Mare owner may store unused doses, at mare owner's expense, to breed the same mare at a later date.

Mare owner may use unused doses on any of their other mares under the conditions as stated below:

One mare will be entered on the AMHA Stallion Service Report per paid stallion service fee. Additional mares will be added prior to December 1st of the year bred when the following criteria are met:

1. Prior approval from stallion frozen semen owner to use unused doses.
2. Signed contract for each mare intended to be bred.
3. Pay in full current Stud Fee for each additional foal.
4. Mare owner MAY NOT sell any unused portion of semen.

Breeding agreement:

1. Contract must be signed and returned to Stacy Hennessy, Rushton Stables.
2. Mare owner is responsible for all additional fees for shipping and semen storage. These itemized fees are billed from the different agencies that provide services.
3. Frozen semen is stored at:
Equine Medical Services
5851 E Deer Park Rd.
Columbia, MO 65201
(573) 443-4414

Mare owner is responsible for identifying and following the import requirements, such as obtaining an Import Permit (if applicable), for the import country. It is recommended that mare owner contact Equine Medical Services to confirm that semen complies with all of the necessary testing for the import country at the time of desired import.

4. All fees must be paid in full to Rushton Stables prior to shipment of frozen semen.
All shipments must be authorized by semen owner's agent Stacy Hennessy, Rushton Stables who will then notify Equine Medical Services of the number of doses the mare owner has purchased. It is the mare owner's responsibility to arrange pickup or shipment of frozen semen from the storage facility.
5. Mare owner is responsible for all facets of the insemination process for mares being bred by use of frozen semen. Mare owner agrees that a licensed veterinarian who is qualified and experienced in the use and handling of frozen semen will perform the insemination. Mare owner agrees to use their best efforts to ensure that the frozen semen is safely transferred from the shipping container to the storage container within 24 hours of arrival.
6. Stallion frozen semen owner Sheryl Bartolucci, Stacy Hennessy and Rushton Stables share the common goals with the mare owners for easy conceptions resulting in healthy foals. Our continued reputation of excellence depends upon this. Due to the many variables involved with the shipping and breeding process that are beyond our control once the semen leaves the

warranty/guarantee, written or implied, with respect to the semen; that it will be delivered within a certain time period or that the semen will safely reach the insemination point without losing integrity or quality.

7. Due to the fact that the frozen semen will be under the care and handling of the mare owner upon arrival and due to the fact that frozen semen can be stored indefinitely (beyond the life span of the stallion), the stallion stud fee does not include a pregnancy or live foal guarantee. Instead, the mare owner is entitled to purchase up to 6 breeding doses (per contract) to insure that more than enough extra semen is in the mare owner's personal possession for re-breeds, should the mare abort or fail to produce a live foal. Therefore, the extra breeding doses may be received with the convenience of one shipment. Additionally, it ensures that the mare owner will never need to wait for a shipment if a re-bred becomes necessary, as they will already have extra doses on hand at all times. It is understood and agreed that if, for any reason, the mare fails to conceive or fails to produce a live foal; mare owner will hold Sheryl Bartolucci, Stacy Hennessy, and Rushton Stables harmless. Mare owner agrees that stallion frozen semen owner Sheryl Bartolucci and agents Stacy Hennessy and Rushton Stables will not be responsible for any disease, accident, injury, sickness or death of mare or foal.
8. Contracts are for a SINGLE DESIGNATED mare to produce a single foal and are non transferable. Fees associated with registration of foals are the mare owner's responsibility. Mare owner agrees to allow the use of photos of foals sired by SLB Da Vinci for marketing purposes and on the internet.
